

## Swain House Primary School

**Type of CSR Activity**

Community

**Organisation Involved**

Swain House Primary School

Caddick Construction completed an extension and alteration works to Swain House Primary School in Bradford in August 2010.

In 2011, in order to carry on the excellent relationship built up by the project team and the school, Caddick Construction helped to develop their Wildlife Area which the children will use for doing wildlife education projects.

*"We are delighted that the relationship between Caddick and ourselves has continued. We are grateful for the materials and expertise that we have received to further develop our Wildlife area. The wildlife area has become an invaluable outdoor resource that the children of Swain House enjoy using.*

*Many thanks."*

Swain House Primary School

Caddick Construction's involvement included:

- Digging out the pond area.
- Providing the materials and skilled labour to build a 'dipping' platform for the pond.
- Providing the hard core for the path going around the Wildlife Area.
- Taking part in a Volunteer Day, building a 'storey circle.
